HEMALATHA G

Full Stack Web Developer

Chennai, Tamil Nadu — +91 89460 45205 — hemaganapathy26@gmail.com

linkedin.com/in/hemaganapathy26 — github.com/hemaganapathy26

PROFESSIONAL SUMMARY

Full Stack Web Developer with 1.5 years of experience building and deploying scalable enterprise and government web applications across the full SDLC using **React.js, Node.js, Express.js, TypeScript, and MySQL**. Proven expertise in **RESTful API development, API integration, authentication & authorization (JWT/RBAC)**, production deployment, and performance tuning. Experienced in **cloud and VPS deployment (Vercel, DigitalOcean)** with PM2 process management across 5+ live platforms. Recognized for strong **problem-solving, cross-functional communication, team collaboration, and end-to-end ownership** of product features.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Context API, Material UI (MUI), Formik, Yup, Axios, React Router, Vite

Databases: MySQL, MariaDB – Schema Design, Query Optimization, Indexing, Stored Procedures

DevOps & Deployment: Vercel, DigitalOcean (Droplets), VPS Deployment, PM2 Process Management, HTTPS, Environment Configuration

Tools & Practices: Git, GitHub, Postman, API Testing, Agile / Sprint Workflow, MVC Architecture, JWT Authentication, RBAC, SDLC, Code Review, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Developer *Dec 2024 – Present*

ImaginetVentures, Chennai

- Built and deployed enterprise and government web applications using **React.js + Node.js + Express.js**, supporting **1,000+ active users** via stable cloud and VPS deployments managed with PM2.
- Engineered secure **JWT-authenticated REST APIs** with full authentication & authorization controls; boosted response performance by **35%** via MySQL indexing and performance tuning.
- Architected **RBAC systems** with multi-stage approval workflows across **5 platforms**, cutting manual processing effort by **40%** and reducing review cycle time from days to hours.
- Enforced production deployment best practices including token validation, input sanitization, and HTTPS across all releases, achieving **zero security incidents**.
- Led cross-functional collaboration with stakeholders for requirement gathering across **3+ sprint cycles**, accelerating feature release cadence by **20%** through iterative Agile delivery.
- Validated **100% of CRUD API endpoints** via structured Postman test suites pre-deployment, maintaining a **zero post-release critical bug** record.

Full Stack Developer Intern *Oct 2024 – Dec 2024*

ImaginetVentures, Chennai

- Launched **TRACKER**, an internal task management platform with role-based assignments and systematized email notifications, reducing missed deadlines by **30%** within the first month.
- Shipped **8 API modules** across 2 Agile sprint cycles with full Postman validation and a **100% first-review acceptance rate** before production deployment.

KEY PROJECTS

MBS (Memaar Building Systems) *Stack: React, TypeScript, Node.js, Express.js, MySQL, Redux, JWT*

- Designed and built an enterprise workflow management system with configurable approval hierarchies and department role masters.
- Executed Job Enquiry and Contract Change Order modules with multi-level review and staged approvals.
- Reduced document turnaround time by **30%** through structured governance pipelines and RBAC-controlled workflows.

INAE Membership Panel *Stack: React.js, Node.js, Express.js, MySQL, JWT, Razorpay*

- Architected a government-grade membership platform with multi-role RBAC and mechanized approval workflows.
- Integrated Razorpay payment gateway with automated invoicing and receipt generation.
- Reduced manual processing time by **40%** and scaled platform to **1,000+ active users** via Vercel cloud deployment.

LMGGT – Inventory & Stock Management *Stack: React.js, Node.js, MySQL, REST APIs*

- Engineered a real-time inventory system managing **1,000+ SKUs** with bulk uploads, stock transfers, and inventory adjustments.
- Implemented tax invoice generation with structured API integration across frontend and backend layers.
- Accelerated database performance by **35%** through schema indexing and query optimization.

Kutti & Kasi – Business Management Platform *Stack: React.js, Express.js, MariaDB, MUI, JWT*

- Constructed a business operations platform with inventory tracking, lead management, and follow-up scheduling.
- Automated quotation generation and follow-up workflows, slashing manual effort by **50%**.

PUS (Meri Life) – Tamil Nadu Government Volunteer Portal *Stack: React.js, Node.js, Express.js, MySQL*

- Spearheaded a volunteer management system for **500+ volunteers** with attendance tracking, event coordination, and leaderboard ranking.
- Computerized PDF certificate generation with dynamic data population and role-based access control.
- Boosted API performance by **45%** through database optimization and performance tuning.

CERTIFICATIONS & TRAINING

Full Stack Development *Jul 2024 – Sep 2024*
Shooting Stars Foundation, Chennai

Web Development *Mar 2024 – Apr 2024*
Siva Sethu Info Tech, Trichy

EDUCATION

B.Tech in Information Technology *Jun 2020 – May 2024*
Indra Ganesan College of Engineering, Trichy — CGPA: **8.1 / 10**

AWARDS & RECOGNITION

CRM Expert Award *Jan 2026*
ImaginetVentures – Recognized for outstanding contribution to client relationship management system delivery.

Full Stack Hero Award *Jan 2025*
ImaginetVentures – Honored for exceptional full stack delivery across multiple enterprise and government platforms within the first 3 months.
